

NexaAI Solutions — Employee Handbook and Company Policy Document

Version: 2.0

Effective Date: January 1, 2026

Document Owner: Chief Executive Officer

Last Reviewed: June 1, 2026

Classification: Internal — All Employees

1. About NexaAI Solutions

1.1 Company Overview

NexaAI Solutions is an AI-services company specializing in building custom artificial intelligence and machine learning systems for enterprise clients across banking, healthcare, retail, and logistics sectors. The company was founded in 2021 and is headquartered in Pune, India, with remote employees across the country. NexaAI delivers end-to-end AI solutions including intelligent document processing, computer vision systems, conversational AI, predictive analytics pipelines, and generative AI applications.

As of 2026, NexaAI employs approximately 80 full-time employees and engages several specialist contractors. The company operates in a fast-paced, delivery-focused environment where technical excellence, client ownership, and continuous learning are core to how work gets done.

1.2 Mission

To accelerate enterprise value creation through pragmatic, production-grade artificial intelligence.

1.3 Core Values

- **Build with rigor.** Every system we ship must be reliable, explainable, and production-ready.
- **Own the outcome.** Employees are expected to take full ownership of the problems they work on, not just the tasks.
- **Learn continuously.** The AI landscape moves fast. Curiosity and upskilling are expected at every level.
- **Operate with trust.** Clients trust us with their data, their infrastructure, and their reputation. We protect that trust absolutely.
- **Be direct.** Honest, specific communication is valued over hierarchy and vagueness.

1.4 Organizational Structure

NexaAI is organized into the following departments:

Department	Function
Engineering	ML engineering, software development, infrastructure
AI Research	Applied research, model development, experimentation
Data	Data engineering, data operations, annotation pipelines
Product	Product management, solution design, delivery
Client Success	Client onboarding, account management, escalations
Marketing	Content, brand, growth, and demand generation
Finance	Accounting, financial planning, vendor management
People Operations	Hiring, HR operations, policy, employee experience

2. Employment Policies

2.1 Employment Types

NexaAI employs staff under the following employment types:

- **Full-time permanent:** Standard employment with full benefits, applies to all employees unless otherwise stated.
- **Probationary:** All new employees begin with a 90-day probationary period. During this time, employment can be terminated with 15 days notice from either side.
- **Contractor / Consultant:** Engaged for defined scopes of work. Contractors are not eligible for leave benefits, health insurance, or equity grants unless their specific contract states otherwise.
- **Internship:** Minimum 2-month duration. Interns receive a monthly stipend and mentorship but are not permanent employees.

2.2 Working Hours

Standard working hours at NexaAI are 9 hours per day, Monday through Friday, inclusive of a 1-hour unpaid lunch break. Core collaboration hours are 10:00 AM to 5:00 PM IST, during which all employees are expected to be reachable via Slack and available for meetings.

Employees in client-facing or delivery roles may be required to accommodate client time zones with advance notice. Overtime beyond 50 hours per week requires manager approval and will be compensated as time-off-in-lieu rather than cash payment unless local law mandates otherwise.

2.3 Remote and Hybrid Work

NexaAI operates a hybrid model. Employees may work remotely for up to 3 days per week unless their role is designated as fully remote or fully in-office. Fully remote roles are designated at the time of hiring. Employees working remotely are responsible for maintaining a stable internet connection, a professional work environment during video calls, and availability during core hours.

Remote work is a privilege, not an entitlement, and may be revoked at manager or HR discretion for performance, client-need, or operational reasons.

2.4 Background Verification

All full-time hires are subject to background verification before their first day. This includes:

- Identity verification.
- Previous employment verification for the last 3 employers or 5 years, whichever is shorter.
- Education certificate verification for the highest degree claimed.
- Reference checks with at least 2 professional references.
- Criminal record check, where legally permissible.

Failure to pass or cooperate with background verification will result in withdrawal of the offer or immediate termination.

3. Employee Onboarding

3.1 Pre-Joining Checklist

Before the joining date, the People Operations team will:

- Send a digital offer letter for e-signature.
- Collect documents: PAN card, Aadhaar, educational certificates, last 3 months salary slips, experience letters from previous employers, bank account details, and a recent passport-size photograph.
- Share the Pre-Joining Guide which covers laptop dispatch timelines, Slack setup, tool access, and Day 1 schedule.
- Create employee accounts for email (Google Workspace), Slack, Jira, Confluence, GitHub, and the HR portal.
- Assign an onboarding buddy — a peer engineer or team member who will be the new joiner's informal guide for the first 30 days.

3.2 Day 1 Schedule

All new joiners will be given a structured first-day schedule:

Time	Activity
9:30 AM	Welcome call with CEO or Department Head
10:00 AM	IT setup — laptop, accounts, VPN, access provisioning
11:00 AM	HR orientation — policy walkthrough, tools tour, HR portal demo
12:00 PM	Lunch with the team
1:30 PM	Meet onboarding buddy
2:30 PM	Project briefing with line manager
4:00 PM	1-on-1 check-in with manager
5:00 PM	End of Day 1

3.3 First 90 Days Plan

The first 90 days at NexaAI follow a structured ramp-up plan designed to help new employees build technical context, establish relationships, and begin contributing meaningfully.

Days 1–30 (Learn)

- Complete all mandatory policy training on the HR portal.
- Set up all local development environments and toolchains.
- Read through project documentation, architecture docs, and existing codebase.
- Shadow senior team members in meetings and design reviews.
- Complete at least 1 assigned starter task or bug fix with code review.
- Weekly 1-on-1 with manager.

Days 31–60 (Contribute)

- Take ownership of at least 1 feature or component with manager oversight.
- Participate in sprint planning and retrospectives.
- Present a 15-minute "Learning Share" to the team on a topic from your onboarding.
- Complete any required tool or compliance certifications.

Days 61–90 (Own)

- Lead a task or deliverable end-to-end with code review and client or stakeholder sign-off.
- Receive a 90-day performance check-in from the manager.
- Provide upward feedback through the HR portal on onboarding experience.
- Confirm permanent employment or receive a performance improvement plan if needed.

3.4 Required Training During Onboarding

All employees must complete the following training modules on the HR portal within the first 30 days:

- Information Security and Data Handling Policy
- Code of Conduct and Anti-Harassment Policy
- Client Confidentiality and NDA Training
- AI Ethics and Responsible AI Guidelines
- Leave and Benefits Overview

Incomplete training after 30 days will be flagged to the manager and tracked as a compliance issue.

3.5 Laptop and Equipment Policy

NexaAI provides company-owned laptops to all full-time permanent employees. Interns and contractors may either receive a laptop or use their own device depending on the project. Issued laptops remain company property and must be returned on the last working day.

Employees are responsible for:

- Not installing unlicensed software.
- Enabling full disk encryption.
- Not sharing the device with non-employees.
- Reporting loss or damage within 24 hours to IT and People Ops.

Damage caused by negligence may result in a partial cost recovery from the final settlement.

4. Leave Policy

4.1 Leave Year

The NexaAI leave year runs from January 1 to December 31. Leave balances reset on January 1 each year. Employees who join mid-year will receive pro-rated leave balances based on the number of months remaining in the leave year.

4.2 Types of Leave

4.2.1 Earned Leave (EL)

- **Entitlement:** 18 days per calendar year, accrued at 1.5 days per month.
- **Eligibility:** Available after completing 3 months of employment.
- **Application:** Must be applied at least 3 working days in advance on the HR portal, subject to manager approval.

- **Carry-forward:** Up to 9 unused Earned Leave days can be carried forward to the next calendar year. Days beyond 9 lapse on December 31.
- **Encashment:** Earned Leave balance (excluding carried-forward days) can be encashed once per year during the annual appraisal cycle, subject to a minimum of 5 days being encashed and a maximum of 9 days being encashed at a time.
- **Half-day EL:** Employees may apply for half-day Earned Leave for either morning or afternoon sessions.

4.2.2 Sick Leave (SL)

- **Entitlement:** 10 days per calendar year, credited in full on January 1 or on the date of joining for new employees.
- **Eligibility:** Available from Day 1 of employment.
- **Application:** For 1–2 days of sick leave, inform the manager by message on the same morning. For 3 or more consecutive sick days, a medical certificate from a registered doctor must be submitted to People Ops within 2 working days of resuming work.
- **Carry-forward:** Sick Leave does not carry forward. Unused Sick Leave lapses on December 31 each year.
- **Encashment:** Sick Leave cannot be encashed.

4.2.3 Casual Leave (CL)

- **Entitlement:** 8 days per calendar year, credited in full on January 1.
- **Eligibility:** Available after completing the 90-day probationary period.
- **Application:** Can be applied up to 1 day in advance or on the day itself in genuine urgent situations, subject to manager awareness.
- **Carry-forward:** Casual Leave does not carry forward.
- **Encashment:** Casual Leave cannot be encashed.
- **Restriction:** Casual Leave cannot be combined with Earned Leave in the same application unless approved by the Department Head.

4.2.4 Maternity Leave (ML)

- **Entitlement:** 26 weeks (182 days) of paid Maternity Leave for the first two children. For the third child onward, 12 weeks of paid leave applies.
- **Eligibility:** Female employees and employees who are the biological or adoptive primary caregiver must have worked at NexaAI for at least 80 days in the 12 months preceding the expected date of delivery.
- **Pre-natal leave:** Up to 8 weeks of Maternity Leave can be availed before the expected date of delivery.
- **Adoption:** For adoptive mothers, 12 weeks of Maternity Leave is available from the date the child is handed over.

- **Commissioning mothers:** 12 weeks of Maternity Leave applies from the date the child is delivered to the commissioning mother.
- **Creche facility:** NexaAI will reimburse up to INR 2,500 per month toward creche or daycare expenses for children below 6 years of age, for up to 24 months after return from Maternity Leave.

4.2.5 Paternity Leave (PL)

- **Entitlement:** 10 working days of paid Paternity Leave.
- **Eligibility:** Available to all male employees and non-primary caregiving partners from the date of a child's birth or adoption.
- **Application:** Must be applied on the HR portal with supporting documentation (birth certificate or adoption papers) within 30 days of availing the leave.
- **Carry-forward:** Paternity Leave must be availed within 3 months of the child's birth or adoption. Unused Paternity Leave lapses after this window.

4.2.6 Bereavement Leave (BL)

- **Entitlement:** 5 working days of paid Bereavement Leave in the event of the death of an immediate family member.
- **Immediate family means:** spouse or domestic partner, children, parents, parents-in-law, and siblings.
- **Extended family:** 2 days of paid leave for the death of grandparents, grandparents-in-law, or first cousins.
- **Application:** Inform manager via message as soon as possible. Documentation such as a death certificate may be requested for HR records.
- **Additional leave:** If travel beyond 500 km is required for bereavement, 1-2 additional days may be approved by the manager on a discretionary basis.

4.2.7 Compensatory Off (Comp Off)

- **Entitlement:** 1 Comp Off day for every weekend or public holiday worked.
- **Eligibility:** Must work a minimum of 6 hours on the holiday to qualify.
- **Application:** Manager must acknowledge the work done on the holiday via Slack or Jira. Comp Off must be applied on the HR portal within 30 days of earning it.
- **Expiry:** Comp Off expires if not availed within 60 days of being earned.

4.2.8 Public Holidays

NexaAI observes 10 mandatory national public holidays per year and allows employees to choose 2 additional optional holidays from a list of 6 regional or cultural festivals. The mandatory holiday list and optional holiday list are published annually on the HR portal by November 30 of the preceding year.

4.3 Leave Without Pay (LWP)

If an employee has exhausted all available leave balances and is absent, the additional absences will be treated as Leave Without Pay. LWP of more than 10 continuous days without prior approval may be treated as abandonment of employment.

4.4 Leave Policy During Probation

During the 90-day probationary period:

- Sick Leave is available in full.
- Earned Leave accrues but cannot be availed until the probation period is completed.
- Casual Leave, Maternity Leave, and Paternity Leave are not available during probation.

4.5 Leave Application Process

1. Log in to the HR portal.
2. Navigate to Leave Management.
3. Select the leave type and dates.
4. Add a reason (mandatory for EL, CL, and LWP).
5. Submit for manager approval.
6. Manager approves or rejects within 1 working day for casual requests and 2 working days for planned leave.
7. Employees receive an email notification of the decision.

For urgent or unplanned leave (same-day sick leave), the employee must notify the manager by Slack or phone before 10:00 AM and submit the HR portal application by end of the same day.

5. Compensation and Benefits

5.1 Salary Structure

All employee compensation at NexaAI is structured as Cost to Company (CTC). The CTC includes:

Component	Description
Basic Salary	40% of CTC. Forms the basis for PF, gratuity, and leave encashment calculations
HRA (House Rent Allowance)	50% of Basic for metro-city employees, 40% of Basic for others
Special Allowance	Balancing component making up the remainder of CTC
Performance Bonus	Target 10–20% of annual CTC, paid annually after appraisal
Employer PF Contribution	12% of Basic, contributed to EPF by the company
Gratuity	Accrues at 4.81% of Basic per year; payable after 5 years of service

Salary is credited on the last working day of each month or the nearest working day if it falls on a weekend.

5.2 Appraisal and Increment Policy

Performance appraisals are conducted once per year in March. The appraisal cycle runs:

- January–February: Self-assessment and peer feedback collection.
- March: Manager review and calibration.
- April: Communication of increment and final rating.
- May: Revised CTC effective from May 1.

NexaAI uses a 5-band rating system:

Rating	Label	Typical Increment Range
5	Outstanding	25–35%
4	Exceeds Expectations	15–25%
3	Meets Expectations	8–15%
2	Needs Improvement	0–5%
1	Unsatisfactory	0%, PIP initiated

Ratings are normalized across teams in a calibration meeting. No more than 10% of employees in any team can receive a rating of 5 in a given cycle.

5.3 Health Insurance

NexaAI provides group health insurance to all full-time permanent employees, effective from the date of joining.

- **Coverage:** INR 5,00,000 per employee per policy year.
- **Dependents:** Coverage can be extended to spouse, children (up to age 25), and parents at an additional premium shared equally between the employee and NexaAI.
- **Network:** Cashless treatment at 8,000+ network hospitals across India.
- **Pre-existing conditions:** Covered after a 30-day waiting period.
- **Claim process:** Cashless claims can be initiated at the network hospital. Reimbursement claims must be submitted within 30 days of discharge with all original documents.

5.4 Provident Fund

NexaAI contributes 12% of the employee's Basic Salary to the Employee Provident Fund (EPF) every month. An equal 12% employee contribution is deducted from salary. EPF accounts are managed by the EPFO. Employees may voluntarily contribute a higher percentage through the Voluntary Provident Fund (VPF) by informing the Finance team.

5.5 Professional Development Budget

Every full-time employee with more than 6 months of tenure at NexaAI receives an annual professional development budget:

Level	Annual Budget
Junior (0–2 years experience)	INR 15,000
Mid-level (2–5 years experience)	INR 25,000
Senior (5+ years experience)	INR 40,000
Lead / Principal / Architect	INR 60,000

This budget may be used for:

- Online courses and certifications (Coursera, Udemy, AWS, GCP, etc.)
- Conference registrations and travel (up to 50% of budget)
- Technical books and learning materials
- Paid tooling for learning purposes

Claims must be submitted on the HR portal with receipts. Budget does not carry forward to the next calendar year.

5.6 Internet Allowance

Remote and hybrid employees receive a fixed monthly internet allowance of INR 1,500 credited directly to salary to cover home internet costs. No receipts are required for this reimbursement.

5.7 Meal Policy

Employees working from the Pune office are provided with complimentary lunch Monday through Friday. Employees working on-site with clients or at external venues can claim meal expenses up to INR 500 per day with receipts.

6. Code of Conduct

6.1 Professional Behavior

All employees of NexaAI are expected to conduct themselves professionally at all times — in the office, while working with clients, while attending industry events, and while communicating online in a professional capacity. This includes:

- Being respectful, direct, and constructive in all communications.
- Meeting commitments and communicating early when commitments are at risk.
- Representing NexaAI accurately to clients, partners, and the public.

- Not speaking negatively about NexaAI, its clients, or colleagues in public forums.

6.2 Anti-Harassment Policy

NexaAI maintains a zero-tolerance policy toward harassment of any kind. Harassment includes, but is not limited to:

- Unwanted physical contact.
- Verbal abuse, threatening language, or sustained personal attacks.
- Discriminatory remarks based on gender, religion, caste, ethnicity, age, disability, marital status, sexual orientation, or any other protected characteristic.
- Sharing inappropriate content via any communication channel.
- Persistent unwanted personal messages or attention.

Employees who experience or witness harassment must report it to People Operations or directly to the CEO if the harassment involves People Ops. All complaints will be investigated confidentially. Retaliation against any complainant is itself a disciplinary violation.

A formal Internal Complaints Committee (ICC) is constituted as required under the Prevention of Sexual Harassment (POSH) Act, 2013.

6.3 Conflict of Interest

Employees must avoid situations where personal interests conflict or could appear to conflict with the interests of NexaAI or its clients. Common situations requiring disclosure include:

- Investing in or advising a competitor or client.
- Hiring a close family member into a team the employee directly manages.
- Accepting gifts from vendors valued above INR 2,000.

If a potential conflict of interest arises, the employee must disclose it to their manager and People Ops within 5 working days. Undisclosed conflicts are a serious disciplinary matter.

6.4 Social Media Policy

Employees may mention their employer on social media in a personal capacity provided they:

- Clearly identify opinions as personal and not representative of NexaAI.
- Do not disclose client names, project details, proprietary methods, or internal business information.
- Do not disparage clients, partners, competitors, or colleagues by name.

Sharing technical learnings, writing about AI topics, and posting conference talks is encouraged, provided they do not reveal confidential information.

6.5 Disciplinary Process

NexaAI follows a progressive disciplinary process for violations of policy or professional standards:

1. **Verbal warning:** For first-time minor violations. Documented by the manager.
2. **Written warning:** For repeated minor violations or a first serious violation.
3. **Performance Improvement Plan (PIP):** For sustained performance failures or behavioral issues. Duration 30–90 days with clear targets.
4. **Suspension:** In serious cases pending investigation.
5. **Termination:** For gross misconduct, repeated violations after written warning, or failed PIP.

Harassment, data breach, unauthorized data access, and misrepresentation to clients are treated as gross misconduct and may lead to immediate termination.

7. Data Security and Confidentiality

7.1 Data Handling Principles

NexaAI works with sensitive client data including financial records, medical data, customer personally identifiable information (PII), and proprietary business data. All employees must handle such data in compliance with the applicable data protection laws and client contractual obligations.

- Client data must never be accessed beyond the minimum scope required for the task.
- Client data must not be copied to personal devices, personal cloud storage (Google Drive personal, Dropbox personal, etc.), or any system outside the approved project infrastructure.
- Anonymized or masked data must be used for all testing and development activities where possible.
- Production data access requires prior written approval from the manager and the client success lead.

7.2 Credentials and Access Management

- All system credentials must use strong passwords of at least 16 characters.
- MFA (multi-factor authentication) must be enabled on all company accounts, including email, GitHub, AWS, and GCP.
- Passwords must never be shared with colleagues or stored in plain text.
- Unused access should be reported to IT for deprovisioning. Employees must not retain access to client systems after project completion.

7.3 Incident Reporting

Any suspected data security incident — including loss of a device, unauthorized access, phishing, ransomware, or accidental data exposure — must be reported to IT and the manager immediately and within 2 hours of discovery. Delayed reporting without reasonable justification is itself a policy violation.

7.4 Confidentiality Obligations

All NexaAI employees are bound by a confidentiality agreement from the date of their offer letter. Confidential information includes:

- Client identity, project details, and deliverables.
- Source code, models, and proprietary algorithms.
- Internal financial and business metrics.
- Employee compensation and HR records.
- Product roadmaps and strategic plans.

Confidentiality obligations survive employment termination for a period of 3 years.

8. Intellectual Property

8.1 Work Product Ownership

All work product created by an employee during employment — including code, models, algorithms, documentation, designs, reports, and research — is the intellectual property of NexaAI Solutions, except where a specific client contract assigns ownership to the client.

Employees may not use or repurpose company work product for personal projects, freelance work, or external publication without prior written approval.

8.2 Open Source Contribution Policy

Employees may contribute to open-source projects in their personal capacity on personal time, subject to the following:

- Contributions must not include any company or client proprietary code, data, or methods.
- Contributions must not conflict with any client NDA or project exclusivity clause.
- Contributions to open-source libraries or tools used in NexaAI projects require manager review before submission.

NexaAI encourages open-source participation where it does not breach confidentiality.

8.3 AI Model and Dataset Ownership

Models, datasets, synthetic data, and fine-tuned checkpoints created as part of a NexaAI project are proprietary assets. They may not be uploaded to public repositories, published in papers, or shared externally without written approval from the CEO and the relevant client. AI models trained on client data are the joint property of NexaAI and the client as defined in the project contract.

9. Performance Management

9.1 Goal Setting

All employees must define quarterly OKRs (Objectives and Key Results) or goals in consultation with their manager. Goals must be entered into the HR portal by the 10th of the first month of each quarter. Goals are reviewed at the end-of-quarter 1-on-1 meeting.

9.2 1-on-1 Meetings

Managers are responsible for conducting at least one 1-on-1 meeting per two weeks with each direct report. Meeting notes should be logged in the HR portal or the agreed shared document. Consistent failure by either party to participate in 1-on-1 meetings will be flagged in performance reviews.

9.3 Performance Improvement Plan

Employees rated 2 (Needs Improvement) or 1 (Unsatisfactory) are placed on a Performance Improvement Plan. The PIP will specify:

- Specific measurable targets to achieve over 30, 60, or 90 days.
- Support mechanisms – additional mentoring, training, or workload adjustments.
- Review cadence – weekly check-in with manager and People Ops.
- Consequences of non-improvement – up to and including termination.

Employees on PIP retain full employment rights including salary and benefits unless the disciplinary process separately leads to suspension.

10. Separation Policy

10.1 Resignation

An employee wishing to resign must submit a written resignation via the HR portal or email to their manager and People Ops. The notice period is as follows:

Level	Notice Period
Probation period	15 days

Level	Notice Period
Junior to Mid-level (< 3 years at NexaAI)	30 days
Senior / Lead / Manager (3+ years at NexaAI)	60 days
Principal / Architect / Director and above	90 days

NexaAI may waive the notice period at its discretion. Employees must not abruptly stop work without notice; doing so forfeits the final month's salary and may result in a negative reference.

10.2 Full and Final Settlement

Within 45 days of the last working day, NexaAI will:

- Settle all outstanding salary and reimbursements.
- Process leave encashment of eligible Earned Leave balance.
- Issue Form 16 for the applicable tax year within the statutory deadline.
- Issue a relieving letter and experience certificate within 10 working days of the last day, provided no disciplinary action is pending.

10.3 Return of Company Assets

On or before the last working day, employees must return:

- Company laptop, charger, and accessories in working condition.
- Access badges and keys.
- Any physical documents, printed materials, or hardware issued for project work.

Failure to return assets may result in deduction from the final settlement.

10.4 Non-Compete and Non-Solicitation

For a period of 6 months after leaving NexaAI, former employees may not:

- Directly solicit NexaAI's current clients for competing AI services.
- Solicit or recruit NexaAI employees to join another organization.

This clause does not restrict normal employment in the AI industry.

11. Grievance Redressal

11.1 Raising a Grievance

Employees who have a workplace concern — related to compensation, working conditions, manager behavior, team dynamics, or policy interpretation — should first attempt to resolve it informally by speaking directly to the relevant person.

If the informal approach is not appropriate or has not worked, a formal grievance may be filed via the HR portal. The grievance must describe the specific concern, the employees involved, dates, and what resolution is being sought.

11.2 Grievance Investigation Process

People Ops will acknowledge the grievance within 2 working days. An investigation will be initiated within 5 working days. The investigation may include interviews, document review, and consultation with relevant parties. A decision and response will be communicated to the employee within 21 working days.

Employees may escalate to the CEO if they believe the grievance has been handled unfairly by People Ops.

11.3 Anonymous Feedback

Employees may submit anonymous feedback on workplace culture, management, or policies via the anonymous feedback form linked on the HR portal. Anonymous feedback is reviewed quarterly by the CEO and People Ops. No individual can be identified or penalized for anonymous feedback.

12. AI Ethics and Responsible AI Policy

12.1 Responsible AI Principles

NexaAI is an AI services company, and its employees build systems that affect real people and organizations. All AI systems built at NexaAI must be designed and evaluated against the following principles:

- **Accuracy and reliability.** Models must be tested rigorously before deployment. Known failure modes must be documented and disclosed to clients.
- **Fairness.** Systems that make decisions about people — hiring tools, credit scoring, medical triage — must be evaluated for demographic bias and disparate impact.
- **Transparency.** Clients must be informed about the fundamental approach of the system, the training data sources, and the known limitations.
- **Privacy.** Models must not encode or leak personally identifiable information. Training data handling must comply with applicable data protection laws.
- **Human oversight.** High-stakes AI decisions — medical, legal, financial, and criminal-justice applications — must include a human review step and must not be fully autonomous without explicit client and regulatory authorization.

12.2 Prohibited Uses

NexaAI employees must not build or contribute to:

- Systems designed to deceive users about whether they are interacting with a human.
- Facial recognition systems designed for covert mass surveillance.
- Weapons systems or military targeting applications.
- Systems designed to generate disinformation, synthetic media for fraud, or non-consensual intimate imagery.
- Social scoring or behavioral manipulation systems for authoritarian applications.

Any request — from a client or internally — that appears to fall into a prohibited category must be escalated to the CEO before any work begins.

12.3 Generative AI Usage Policy

Employees may use generative AI tools (ChatGPT, Gemini, GitHub Copilot, Cursor, etc.) for internal work subject to the following rules:

- Client data, even anonymized samples, must not be pasted into any external generative AI tool unless the client has explicitly approved the use of that tool in writing.
- Code generated by AI tools must be reviewed, tested, and understood by the developer before merging. Blindly committing AI-generated code without review is a policy violation.
- Content generated by AI tools for client-facing deliverables — reports, documentation, presentations — must be reviewed for accuracy, hallucinations, and consistency with project context before delivery.

13. Policy Amendments

NexaAI reserves the right to amend, update, or replace any section of this handbook at any time. Amendments will be communicated to all employees via the HR portal and company-wide email. Employees are responsible for reading and acknowledging updates within 5 working days of notification. The latest version of this handbook always supersedes previous versions.

This document is intended for internal use only. Distribution outside NexaAI without prior written approval from the CEO is a violation of the company's confidentiality policy.

Document Version: 2.0 — Effective January 1, 2026
